Company Overview

BdR Civil & Structural Engineering Limited is a Consulting Engineering practice carrying out the design and supervision of a broad range of civil and structural engineering projects. The variety of work carried out by BdR, of all sizes and complexity makes BdR an ideal employer for those wishing to progress in a meaningful and worthwhile career. Our friendly and knowledgeable teams are experienced in guiding and encouraging those who wish to learn, and we have an excellent record in helping staff achieve great academic and professional results.

BdR currently employ 19 staff at their offices in Hadlow, Kent working mainly in the south east. We operate a flexi-time system based on a standard 40 hour week.

Job Description

Job Summary:

1. To be the lead structural design engineer on a number of multi million pound new build and refurbishment schemes
2. To manage and develop a structural engineering team
3. To develop good relationships with clients

We are an equal opportunities employer. We strive to employ, motivate, develop and reward employees regardless of: Gender, or marital status. Race Colour, national or ethnic origin. Religion, or religious belief. Disability. Sexual orientation. Age

Our Equal Opportunities policy applies to recruitment and selection, terms and conditions of employment including, pay, promotion, training, transfer and every other aspect of employment. We aim to ensure that individuals are selected, promoted and treated according to their individual abilities and merits.

Main Activities:

1. To prepare, design and manage structural engineering schemes from feasibility through to completion.
2. To project manage a team of junior engineers to assist in the design of the schemes
3. To carry out site visits
4. To develop the professional skill of team members
5. To check the work of team members or others as necessary
6. To conduct appraisals of team members
7. To communicate with clients effectively
8. To contribute to the development of BdR as a great company

Applicant Criteria

1. To have been awarded a relevant degree
2. To be a Chartered Structural Engineer, or near Chartered
3. To be conversant with design in steel, concrete, masonry and timber
4. Have experience in multi storey building design over five storeys.
5. Have experience in design of large span steel framed buildings.
6. Have experience in designing a variety of foundations.
7. To be able to use MS Office Word and Excel
8. Full UK drivers licence
6. To be disciplined and organised.
7. To be passionate about good customer service
8. To be articulate and a good communicator.
9. To be a self-motivator and keen to work.
10. Knowledge of Autocad Software would be an advantage
11. Good knowledge of Tekla or Orion / Fastrak / TEDDS would be an advantage
